Add/Remove Charging station, Meter & RFID

To add a new charging station, navigate to the **Chargers** tab and click on the **Add Charger** button.

ISE-add charger.png

A pop-up window will display all available charging stations. Select the desired charging station from the list.

Once a station is selected, the **OBIS** and **Metering Code** fields will become enabled. These fields are mandatory and must be filled in to proceed.

.

The process for adding a **Meter** is identical to adding a charging station. Navigate to the Meter section, select the meter, provide the required details, and save the configuration.
