Haldenweg residential development - 3400 Burgdorf

Administration and billing solution for e-mobility and washing machines

Bildschirmfoto 2025-05-14 um 14.19.09.jpg

Project description:

Billing solution for charging stations in outdoor car parks and billing solution for the two laundry rooms with 8 washing machines, 4 tumble dryers and 4 Secomats.

4x AC charging points Zaptec Pro 22kW
16x washing machines/tumble dryers, Secomate with Eponet RFID reader
Each tenant has a personal Eponet account with their credit balance and RFID card(s). The same RFID card can be used for washing and charging vehicles. Fully automatic billing between the administration and the tenants.

Charging stations with invited tenants and public charging with QR code for visitors.

Completion of e-mobility in 2023
